

Claudio Squarcella

Engineering Leader

Work Experience

claudiosquarcella.com

[cl@udio dot me](mailto:cl@udio.me)

Rome, Italy

Software engineering leader with background in academic research and data visualization.

Sysdig / Director of Engineering

MARCH 2023 - JANUARY 2025, ROME (ITALY)

Sysdig / Senior* Engineering Manager (*starting March 2020)

MARCH 2017 - FEBRUARY 2023, ROME (ITALY)

Sysdig / Software Engineer

FEBRUARY 2016 - FEBRUARY 2017, SAN FRANCISCO (CA)

Quickly promoted to manager, I bootstrapped remote teams (15+ devs) and delivered monitoring and security features to enterprise customers.

I led collaboration with product teams while driving full-stack technical execution, from optimized query performance to cutting-edge UX for end users. Balanced trade-offs. Fostered a collaborative team culture.

ThousandEyes / Software Engineer

SEPTEMBER 2014 - FEBRUARY 2016, SAN FRANCISCO (CA)

I designed and built tools for network monitoring and troubleshooting. Full-stack experience from Java Spring to D3.js for topology visualization.

Research Activity and Education

Roma Tre University / PhD in Computer Science and Engineering

2004 - 2014, ROME (ITALY)

Bachelor's and Master's degree (with honors). PhD (European Label) under Professor Di Battista, with research focused on tools to easily explore large Internet topologies and key metrics. Post-doc sponsored by NaMeX (Nautilus Mediterranean Exchange) to study IXP performance.

Microsoft Skype Division / Research Intern

OCTOBER 2013 - DECEMBER 2013, TALLINN (ESTONIA)

RIPE NCC / Research Intern

OCT 2009 - MAY 2010 and SEP 2011 - FEB 2012, AMSTERDAM (NL)

Center for Applied Internet Data Analysis / Visiting Scholar

AUGUST 2010 - DECEMBER 2010, SAN DIEGO (CA)

Multiple scholarships abroad during my academic path. Research focused on analyzing and visualizing real-world internet data: from Skype call performance metrics to BGP routes and K-root server distributed load.
